

BELLE REEVE SOFA SYSTEM WORKSHEET

Luca Nichetto for De La Espada

Belle Reeve is a sofa system by Luca Nichetto with seemingly endless possibilities. The sofa has a deep, low body with brass or stainless steel feet, and a choice of solid wood lattice panels or upholstered panels on the backrests. Different arm and table options combine with the seat modules to break the symmetry of this versatile sofa, allowing for personalised configurations.

DEFINING YOUR CONFIGURATION

You can create your desired configuration using one of the following methods:

COMMON CONFIGURATIONS

Find common configurations on pages 2-8. Each configuration can be ordered as drawn, or can be altered with a chosen 'ending.'

A LA CARTE

Define your own configuration using individual modules. Modules, procedures and graph paper can be found on pages 9-16.

SCATTER CUSHIONS

Scatter cushions are not included with the configurations or modules. Scatter cushions are available in three sizes, and must be specified on the relevant Finishing Touches page.

PANEL OPTIONS

Backrests and armrests include panels either timber lattice or upholstered: one 1.5-unit for 1.5-unit backrests, one 1-unit for 1-unit backrests and arms, and two 1-unit for 2-unit backrests.

TABLES

Marble table modules are available in a choice of marble options including Rosa Negrais, Negro Marquina, or Carrara marble; or Ataija Creme limestone.

HARDWARE

Connection hardware will be provided to fix the individual modules into the configuration ordered.

COMMON CONFIGURATIONS

2

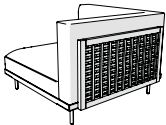

Find common configurations on pages 3-7. Each configuration can be ordered as drawn, or can be altered with a chosen 'ending.'

NOTE: Changing endings will affect the price of the sofa, and endings cannot be added to armchairs, ottomans, side tables, or coffee tables. Scatter cushions are not included in the configurations and must be chosen on page 8 along with the other finishing touches.

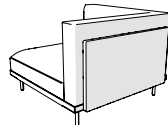

ENDINGS

Alternative 'endings' can be specified as preferred on the right and left hand side of a configuration. You may specify an arm with lattice panel, arm with upholstered panel, no arm, or a flat armrest. Your choice of ending will affect the sofa price.

CREATE YOUR OWN CONFIGURATION

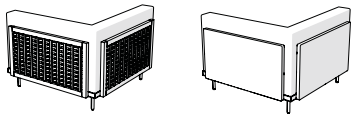

NICHETTO

Follow the procedures and guidance on pages 9-15, then use the space on page 14 to draw your chosen configuration before completing page 16 with finishing touches.

PANEL OPTIONS

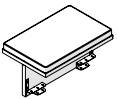

Backrests and armrests require a panel either timber lattice or upholstered: one 1.5-unit for 1.5-unit backrests, one

1-unit for 1-unit backrests and arms, and two 1-unit for 2-unit backrests.

FLAT ARMREST

Flat armrests can be added only to a seat + backrest or seat module. The central post attaches to the outside of the base, and the arm overhangs the edge of the sofa by 23.5cm | 9 1/3". Flat armrests are solid wood with an upholstered pad attached with hidden magnets.

SCATTER CUSHIONS

Scatter cushions are available in three sizes, and must be specified on page 16.

TABLES

Marble table modules are available in a choice of marble options including Rosa Negrais, Negro Marquina, or Carrara marble; or Ataija Creme limestone.

HARDWARE

Connection hardware will be provided to fix the individual modules into the configuration ordered.

CREATE YOUR OWN CONFIGURATION

BELLE REEVE SOFA BY NICHETTO

Follow the procedures and guidance on pages 9-15, then use the space on page 14 to draw your chosen configuration, before completing page 16 with finishing touches.

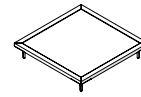

1. CHOOSE YOUR BASE(S)

First, choose a base or series of bases to set the overall size of your sofa. Bases consist of solid wood set upon brass or stainless steel feet.

DRAW YOUR CHOSEN CONFIGURATION

Following the procedures on pages 9-15, use the space below to draw your chosen configuration, using the left hand key and grid lines to ensure an accurate scale. Please include a cross through any tables for clarity. NOTE: Panels are required for backrests and armrests: one 1.5-unit for 1.5-unit backrests, one 1-unit for 1-unit backrests and arms, and two 1-unit for 2-unit backrests. Panel depth 3.5cm (1 2/5"), should be considered when calculating overall dimensions. Each grid square equals 47.5cm | 18 3/4"
