DISCLAIMER

LED lamping on 14.7 is not dimmable. Unless otherwise noted when ordering, all chandeliers will be outfitted to be xenon compatible. As an alternative to the junction box transformer, Bocci recommends mounting power supplies remotely in an easily accessible and hidden location for ease of long-term maintenance. Shortest and longest lengths must be provided and are recommended to be no less than 12" (300mm) apart to create an optimum cascade. Bocci will create a random selection of lengths throughout the minimum and maximum range provided.
