CARE

For polished nickel, use a lightly damp soft dust cloth and gently go over marks until clean. For polished brass, as this item is unlacquered, it naturally oxidises (darkens). Upon touching the items without gloves, finger prints are likely to occur and leave marks. Use a good quality brass cleaning liquid and white cotton gloves provided, turn off and unplug fixture before cleaning. Carefully use a lightly damp soft dust cloth and gently go over marks until clean. Dry after with a soft dust cloth. Make sure fixture is dry before switching electricity on. Remove opaline glass spheres and lightly clean using a damp cloth only on the outside of sphere. Only put glass sphere back on once fully dry.
