CARE

Using the white cotton gloves provided, turn off and unplug fixture before cleaning. For the glass, carefully use a lightly damp soft dust cloth and gently go over marks until clean. For polished brass, as this item is unlacquered, it naturally oxidises (darkens). On touching the items without gloves, finger prints are likely to occur and leave marks. Use a good quality brass cleaning liquid. Dry after with a soft dust cloth. For polished nickel, use a lightly damp soft dust cloth and gently go over marks until clean.
