CARE

For satin brass, use the Scotch Brite pad (supplied in the product box) and gently rub the pad in the direction of the grain. Repeat until the natural patina is removed. On rubbing the Scotch Brite to the brass, grains will occur. The color of the product will temporarily get lighter until it re-oxidizes. For Satin Nickel, use a lightly damp soft dust cloth and gently go over marks until clean. Dry it afterward with a soft dust cloth. Make sure the fixture is off before removing the opaline glass sphere from the product. Using a lightly damp cloth, clean only the outside of the sphere.
