

GALANTER & JONES

Galanter & Jones is a San Francisco based design and fabrication studio operated by the brother and sister team of Aaron and Miranda Jones. In 2013, the studio introduced its uniquely ingenious line of heated outdoor seating, the first product of its kind and a revolutionary and elegant alternative to traditional outdoor heating methods such as heat lamps or fire pits. The cast concrete seating is pebble-smooth and warm; the surface feeling like a large, accommodating rock that's been left out in the sun and retained its heat.
