

GALERIE SOLIS

Sarah Solis, Founder of Galerie Solis, introduces a modern perspective on legacy building through her debut furniture line. Each piece in the collection reflects Sarah's deep appreciation for craftsmanship, blending European technique with a California-inspired approach to comfort and liveability. Created to be lived with and passed down, her designs embody an understated elegance that prioritizes both functionality and emotional resonance. Through her careful curation of materials like sustainably sourced Belgian linens and luxury Italian mohair, Solis's work strikes a balance between beauty, utility, and sustainability.
